

# Alyssa Urrea

UX Designer

## Experience

---

### Google

October 2020-Present

#### Contract UX Designer

I worked on payments, my focus will related to features in Google Play Store. My work consisted of wireframe and helping with research studies to creating visuals for onboarding animation and UI, as well as animating and prototyping.

### That Geeky Crafter Design studio

June 2019-Oct. 20

#### Contract Product Design

I created functional prototypes for app and website. I launched a beta program for their online site which involved the UX and Visuals for a simplified onboarding experience.

### Freelance

March 2017- May 2019

#### Interface design, Interaction design, Motion Design and Prototyping.

I worked with local businesses that primarily focused on responsive website design, interaction design, UI design, motion design and prototyping. I created visual concepts and user journey for product launches. I created the design implementation of projects in visual design and brand assets.
